MEURA

1845 年 以 来 的 传 统 先 锋

Headquartered in France, with 3000 employees around the world, BOCCARD provides innovative equipment and turn-key solutions such as: full breweries and brewhouses (by our world famous Belgium subsidiary MEURA), high performance wine making plants, beverage production lines, all types of dairy facilities, cosmetic skids, complete cGMP process solutions for pharmaceutical applications, non Newtonian fluid systems for automotive, paper mill, glass and other industries. BOCCARD is also a major world player in executing and maintaining industrial pipe and mechanical work for the chemical, oil and gas, power and nuclear power industries. Our Shanghai subsidiary is a Wholly Owned Foreign Enterprise, and our present activity growth requires to strengthen our engineering team with a:

Installation supervisor

Candidate Requirements:

- Bachelor Degree in Engineering or related fields
- 2-3 years experience on project site (ideally in brewing or grain handling industry)
- Willing to learn in new field
- Chinese native speaker
- Fluent in English and Mandarin
- Good communication and interpersonal skills
- Strong sense of responsibility, motivated and willing to travel

Job Responsibilities:

- The mission will cover the full range of project management during the whole project cycle and especially erection supervision on site
- Subcontractor quality control
- After sales service
- Assist in any other technical issues

**We offer competitive compensation package as well as long-term training. Please mail your English and Chinese resume to the following address:
